

**2019 MONTANA  
CONSERVATION AND FLY  
FISHING CAMP SCHOLARSHIP  
MADISON GALLATIN TROUT UNLIMITED  
APPLICATION**

Montana Trout Unlimited invites twenty boys and girls (between ages 11 and 14 at the time they attend the camp) to join volunteers and professionals July 14-18, 2019 to learn about fly fishing, fly tying, watershed management, native fish and more at Camp Watanopa on the banks of Georgetown Lake. The camp includes a habitat restoration tour and field trips to area trout streams and a fish hatchery. Montana TU provides all fishing equipment and classroom supplies during the camp. Participants do not need to have prior fishing experience, just a willingness to learn.

The Madison Gallatin Trout Unlimited Chapter is sponsoring two scholarships for campers from the Madison Gallatin area that are motivated individuals who are excited about learning from experts on water quality, stream restoration, aquatic insects and cold water fisheries.

The \$400 fee to attend will be paid by MGTU and includes all meals and lodging, but does not include transportation to and from the camp. If this presents a problem, please indicate that on the application.

**Send your application no later than April 15, 2019 to [lynae@damsselflyfishing.com](mailto:lynae@damsselflyfishing.com).** Successful candidates will be notified of the results no later than April 25, 2019. If chosen, the online application (<https://montanatu.org/online-applications-open-for-conservation-fly-fishing-youth-camp/>) **must be filled out entirely by May 1, 2019** or the chapter spot will be given to an eligible waitlist applicant.
